

This Week

The median list price in SAN ANTONIO, TX 78201 this week is \$179,450.

The Market Action Index has been trending down lately, while inventory and days-on-market are climbing. The trends imply a weakening market.

Supply and Demand

- The market has started cooling and prices have been flat for several weeks. Since we're in the Seller's zone, watch for changes in MAI. If the MAI resumes its climb, prices will likely follow suit. If the MAI drops consistently or falls into the Buyer's zone, watch for downward pressure on prices.

The Market Action Index answers the question "How's the Market?" by measuring the current rate of sale versus the amount of the inventory. Index above 30 implies Seller's Market conditions. Below 30, conditions favor the buyer.
